# The 1944 NIGHTINGALE

*Published by*  
**THE SENIORS**

*In recognition of the Doctors and Nurses from Rex Hospital  
who are serving their country in the armed forces.*

# Prologue

As Seniors, we look back and remember the experiences that we have had here. Rex girls have laughed, cried, studied, nursed and played, for years, just as we have.

There was a funny feeling when we donned our white uniforms and caps for the first time. When the black bands were added to our caps, there was a feeling of real happiness and importance. A year later when we wore our long sleeves and hospital pins there was a feeling of happiness, mingled with regret.

With sadness in our hearts we give up our places to those who have followed us at Rex. May they be as happy as we have been!!

SENIOR CLASS OF '44.

**MRS. AGNES CAMPBELL**

For "Mother" Campbell's untiring services and care we are thankful. Because she is such a friend to all students, this NIGHTINGALE is dedicated to her.

MRS. JOSEPHUS DANIELS

# U. S. Cadet Nurse Corps

An exhibit on Nursing Education displayed during the annual meeting of the North Carolina Education Association of 1944.

The U. S. Cadet Nurse Corps was created by Act of Congress passed unanimously in June 1943, "to provide for the training of nurses for the armed forces, government and civilian hospitals, health agencies, and war industries. . . ."

"To furnish to students . . . without charge for tuition, fees or other expenses, courses of study and training, uniform, insignia, and maintenance in accordance with regulations of the Surgeon General."

Rex was one of the first schools to enlist in the Cadet Nurse Corps. By taking this step on July 1, 1943, we, as a school, received:

Education as a student nurse to meet the requirements for graduation in our school of nursing—with tuition fully paid.

Board, room, and uniforms—outdoor and indoor.

A regular monthly allowance of \$15 during the first nine months of training, \$20 a month for the next fifteen to twenty-one months, \$30 a month for the three additional months provided by the Senior Cadet period.

Assured employment—as graduate nurses we must pass State Board examinations to become registered nurses. Then we may choose essential civilian or military service for the duration of the war or as long after as we may wish to serve . . . and the uniform and insignia of the U. S. Cadet Nurse Corps is ours, as symbols of service to our country.

The area in which the war is being fought is vast. Thousands of graduate nurses must yet leave civilian posts to take on the enormous task of providing enough of the right kind of care for the servicemen who are our husbands, our brothers, our fathers, and our friends.

We are proud that we could answer as Cadet nurses the urgent needs of the people at home—Mothers and their babies, war workers who were ill or injured, and men and women to whom an operation meant the difference between life and death.

With our heightened perception of humanity, professional and scientific training we are ready to go into all branches of our country's services and civilian work, which is an emergency need alone.

# Foreword

We present this book to the classes that follow. We hope that one day when you have nothing else to do you will take down the old '44 NIGHTINGALE and think of the good times that we had together—along with the sorrows that were mingled with the happiness.

A pleasant afternoon will pass while you dream of old classmates.

## CLASS POEM

What do you want out of living?  
The choice is yours today  
To get happiness by giving  
Yourself and your services away.

Twenty-eight girls made this decision,  
They made it and yet without fear  
Their life to others they were giving  
When they chose nursing as a career.

They came with this intention,  
Their minds open and ready to learn

Of the newness and wonder about them  
Of the patient's welfare and career.

They were taught and guided by in-  
structors  
This knowledge they soon obtained,  
That they gave in useful service  
To soothe and ease the pain.

One task has been completed  
Further work awaits to be done;  
To carry on the teachings  
That at Rex we have won.

HELEN WADE.

## CLASS HISTORY

On the third of September 1941 we twenty-eight hopefuls presented ourselves to Rex Hospital School of Nursing; young, naive and cherishing a deep and secret hope for something special to come of these three years of training.

We embarked on our first days with zeal and feverish determination to work hard and so become good nurses—to make the most of every moment.

The first weeks and months were hard. With work and study and adaptation to new surroundings we were pretty exhausted at the end of the day and were ready to tumble into bed.

Finally the great day came when we were to go on the halls and begin work with the patients. I'm sure that none of us ever felt quite so stupid and awkward as we did that morning when we were confronted with a patient to bathe. That was really most disconcerting and I would gladly have changed places with some other person just to have been outside again. However, we finally became accustomed to the ways of a hospital and grew adept to caring for helpless people.

Then came the white caps—that symbol of dignity that every nurse cherishes. Just a white scrap of linen but oh, how much pride and dignity it held for each one of us.

In the year that followed we did many routine duties; thereby we became more aware of the work that we had undertaken and more conscious of the traditions that a nurse is privileged to and be a part of.

All our days were filled with new undertakings, but there was always fun and good companionship. Our social events were many and varied and will always be remembered.

Next came the "Black Bands" which made us seniors. With it came new responsibilities that we shouldered with glad hearts and we knew that our goal was nearly reached.

At last! The great day—that day of all days which we had striven for was at hand. We were to graduate!

Our three years have been grand. Full of work and good fun. Because we have high hopes for the future, we shall leave Rex joyfully; but because we have gotten here memories never to be forgotten or quite replaced by the new we shall learn regretfully.

RUBY LEE GIBSON.

## SENIOR CLASS PROPHECY

Heavens, there goes Aliese Abernathy or should I say Mrs. Elmond Upchurch. Gee, that sounds funny, but the things that do happen, her working at Goldsboro just until the war was over—for Elmond to come home. Now that must be just a memory—her three children keep her busy most of the time. Oh I wish Miss Williams would let Turbyfill off duty on time so we could talk over the good old days, being her assistant she has managed to keep in touch with almost everyone.

Look here!! here's Maude Parrish—or Mrs. Doug Guthrie with her five children (she always said she was going to do it—you know Maude) I guess she's planning to spend the week-end with Turbyfill and myself—but didn't she know housing was limited?

But wait a minute, here comes Turbyfill. I guess she can give us the low-down on most of our girls—she sure could back in '44.

Honestly, I always knew Dorothy Edgerton would have trouble making up her mind who to marry. I hear she's still trying.

Speaking of marriages, at last there are four girls in our class we never worried about being old maids. We knew before they got out of training that they were married.

So now Mildred May, Katie Lee Bracey, Nell Harrell, and Margie Bunting never get around much any more with a house full of kids, it keeps them busy most of the time.

Ruby Lee Gibson believe it or not has never found a man tall enough to marry. So she's still head of the Public Health Department in Goldsboro.

But to top it all, Esther Harris and Louie Best are now instructors at Duke Hospital. Esther is Nursing Arts instructor, while Louie is Science teacher.

Yes, you guessed it, Vera Hughes, Margaret Bryan, and Earlene Bobbitt finally got in the army. None are married, but they all still have the same old stand by's.

Sure enough, Hester Wayne, Grace Altman, and Lucille Woodard are in the Navy. We know what they mean when you consider them as assets. We feel real proud of them.

And guess what they told me. Betty Joe Newsome is in Davidson. Always knew she would end up there. I hear Bob's instructing her to fly now.

Since Vera Hughes went to the Army, Jane Parham is working for Dr. Herring.

I guess Betty Johnson finally persuaded Helen Wade to go with her to Florida and work in General Hospital there.

I now hear that Grace Monroe is Greyhound hostess from Richmond to Raleigh.

I received a letter the other day from Odell Stewart. She's now married and living in New York. Yes, it was the Marine. She says she sees Emily Jo Barefoot occasionally who is now at Bellevue as one of the Anesthetists. Evelyn Swain is still hall nurse on Maternity Hall. She's still debating marriage.

Well, Turby and Maude's visit was really nice. Can't believe all these things have really taken place. My, how people change. We still would like to think of us as a class one more time. But now we have to console ourselves and remember that never again will we be a class—just people that make up this world of ours.

LARUE COTTON,  
*Class Prophet.*

### DO YOU REMEMBER?

When Altman gave us all milk of magnesia?  
Monroe, Bryan, Bracey talked to boys out of the window?  
When we all were under Dr. Bolus' care?  
Bunting and Parham were restricted?  
When so many birthday suits were exhibited on the roof?  
Altman killed the spider in chapel?

### THE FRESHMAN CLASS

I stood upon the staircase  
And gazed down the hall.  
I saw a bunch of green stuff  
Arranged along the wall.  
I looked again, lo' it moved!  
I thought 'twas waving grass;  
But, no, 'twas on its way to the hall  
'Twas only the Freshman Class.

Dr. Neal (while scrubbing for operating) talking to Barefoot, who was in the O. R. for the first day: "Get outside," he meant on the phone.  
Barefoot—very frightened, looked at him, and walked outside of the O. R.

Miss Steinert: Can anyone tell me why trees become petrified?  
Miss Parrish: The wind makes them rock.

Dr. Proctor: Now watch the board while I run through it once more.

Bracy: In Johns we have a lilac bush fifty feet high.  
Altman: Yeah, wish I could li-lac that.
